Dear Mr Prescott

Thank you for meeting with me yesterday regarding the Senior Engineer appointment.

I appreciate the time you spent with me discussing your plans for expanding and updating your engineering division to pave the way for exporting your products.

Your organisation as you have described it, sounds like one with an exciting period of growth ahead and I would consider it a privilege to be part of your team to help you achieve your current and future corporate objectives.

I look forward to hearing your final decision regarding the appointment by Thursday 10<sup>th</sup> October, as discussed.

Yours sincerely, (or regards)
